Email: anujingole01@gmail.com
Mobile: +91-7387658963

Skills

Languages: C++, JavaScript, PHP, Java
Frameworks: HTML and CSS, Bootstrap, NodeJS, React
Tools/Platforms: MySQL, Canva, Git, Postman, Vs Code, Figma, Docker
Soft Skills: Problem-Solving, Team Player, Project Management, Adaptability

Internships

Libros Private Limited | Link — Jun' 23 - Jul' 23
Software Trainee
- Assisted in developing and maintaining client digital applications, focusing on responsive UI and functionality.
- Gathered customer requirements, prepared progress reports, and ensured timely delivery of module tasks.
- Provided technical support and troubleshooting, improving issue-resolution efficiency by 15%.
- Collaborated with team members, demonstrating strong communication, responsibility, and task-oriented work ethic.
- Enabled small feature enhancements and code optimizations that improved overall application performance and reduced minor bugs during testing and deploying.

Projects

Event Orbit – Event Management Website | GitHub | Live — Sep' 25 - Dec' 25
- Built secure and validated inquiry and booking forms, achieving 100% accurate data capture across user submissions.
- Implemented dynamic event categorization and search, reducing event discovery time by 40%.
- Optimized frontend performance and assets, decreasing average page load time by 30%.
- Ensured cross-browser and mobile compatibility, achieving 90%+ usability scores in performance audits.

Tech: PHP, JavaScript, Html, Tailwind CSS

Personal Finance Manage and Budget Tracker | GitHub — Jan' 25 - May' 25
- Engineered an online-based system to record income, expenses, and budgets with real-time financial tracking.
- Designed modules for transaction management, budget monitoring, and data persistence with the help of PHP and MySQL.
- Applied interactive JavaScript UI features for data entry and reporting, reducing input errors by 35% and speed by 20%.
- Enhanced user financial insights by generating clear summaries and automated alerts for budget limits.

Tech: PHP, JavaScript, MySQL

Check point IPS deployable speed breaker | GitHub — Jan' 24 - Apr' 24
- Created and integrated IPS enhancements, elevating detection and response accuracy by 40%.
- Structured deployable speed breaker control logic with real-time response handling, improving system activation time by 25%.
- Conducted functional and stress testing under multiple traffic scenarios, reducing false triggers and system faults.
- Re-engineered system reliability, ensuring instant protection and minimizing disruption critical operations.

Tech: Check Point, IPS, TCP/IP

Training

CipherSchools – Ed-tech Company | Link — Jun' 25 – Jul'25
Data Structures and Algorithm using Java
- Finished a 65+ hours training program in Data Structures and Algorithms through Java.
- Gained hands-on experience in OOP, Collections, Data Structure Concepts (Arrays, LinkedList, Stack, Queue etc.).
- Analyzed 15+ DSA problems in Java, improving problem-solving efficiency and algorithmic thinking.
- Applied time and space complexity analysis to optimize solutions, reducing execution time by 20–30% across practice programs.

Certifications

- Oracle Cloud Infrastructure 2025 Certified Generative Ai Professional - Oracle — Sept' 25
- Cloud Computing - NPTEL — Apr' 25

Achievements\ Co-Curricular

- Crafted 100+ Canva creatives. — Since Jul' 23
- Achieved state-level recognition in sports demonstrating teamwork and discipline. — Mar' 22

Education

- **Lovely Professional University** — Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; **CGPA: 6.7** — Aug' 24 - Present
- **Lovely Professional University** — Phagwara, Punjab
  Diploma - Computer Science and Engineering; **CGPA: 8.2** — Jul' 22 – Jul' 24
- **Abhyasa English School** — Amravati, Maharashtra
  Intermediate; **Percentage: 58%** — Jun' 20 – Mar' 22
